For the six months ended June 30, 2016

(Unaudited - Expressed in Canadian Dollar)

1. CONTINUING OPERATIONS AND GOING CONCERN

The Company was incorporated under the British Columbia Business Corporations Act on April 13, 2006 and its head office is located at Suite 1740 1177 West Hastings, Vancouver, British Columbia. The Company is an exploration stage company, and its wholly owned subsidiaries, Rye Patch Gold US Inc ("RP US") and Rye Patch Mining US Inc. ("RP Mining"), is engaged principally in the acquisition and exploration of mineral properties in the State of Nevada, United States of America. Rye Patch Mining US Inc. was incorporated on March 4, 2016. Subsequent to June 30, 2016, the Company announced the completion of its acquisition of the Florida Canyon gold mine (the "Acquisition") located in Pershing County, Nevada, the release of escrowed funds and conversion of subscription receipts under its Cdn\$49.1 million private placement (news release June 16, 2016), and its signing of a credit agreement with Macquarie Bank Limited for a US\$27 million credit facility for the redevelopment of the mine. The Company will focus on re-starting the Florida Canon mine to full production.

These condensed consolidated interim financial statements have been prepared on the basis that the Company is a going concern. This assumes that the Company will continue operations for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of business. The ability of the Company to continue as a going concern is dependent on obtaining additional financing through the issuance of debt or common shares. There is a risk that additional financing will not be available on a timely basis or on terms acceptable to the Company. These condensed consolidated interim financial statements do not reflect the adjustments or reclassifications that would be necessary if the Company was unable to continue operations.

2. SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PRESENTATION

These financial statements were authorized for issue on August 29, 2016 by the directors of the Company.

Statement of compliance to International Financial Reporting Standards

These condensed consolidated interim financial statements of the Company have been prepared in accordance with International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"). These financial statements comply with International Accounting Standard 34, Interim Financial Reporting ("IAS 34").

Basis of presentation

These unaudited condensed consolidated interim financial statements include the accounts of the Company and its subsidiaries. It is therefore recommended that this financial report be read in conjunction with the annual financial statements of the Company for the year ended December 31, 2015. However, this interim financial report provides selected significant disclosures that are required in the annual financial statements under IFRS.

Certain amounts in prior periods have been reclassified to conform to the current period presentation.

These unaudited condensed interim consolidated financial statements follow the same accounting policies and methods of application as the annual audited consolidated financial statements for the year ended December 31, 2015, with the exception of the following new accounting standard and amendments which the Company adopted and are effective for the Company's interim and annual consolidated financial statements commencing January 1, 2016.

Updates which are not applicable or are not consequential to the Company have been excluded thereof. The following have not yet been adopted by the Company and are being evaluated to determine their impact:

- IFRS 9: New standard that replaces IAS 39 for classification and measurement, effective for annual periods beginning on or after January 1, 2018
- IFRS 16: New standard that replaces IAS 17 with a new approach to lease accounting that requires a lessee to recognize assets and liabilities for the rights and obligations created by leases, effective for annual periods beginning on or after January 1, 2019

4. ROYALTY INCOME

On June 25, 2013, the Company and Coeur Rochester Inc., a wholly owned subsidiary of Coeur Mining Inc. (collectively, "Coeur"), reached a settlement on the disputed LH and OG unpatented lode mining claims at the Rochester mine. The Company and Coeur engaged in the legal dispute over title to certain LH and OG unpatented lode mining claims covering portions of the Rochester and Packard mine areas. In settlement of the legal dispute, the Company conveyed all of the disputed LH and OG unpatented lode mining claims (comprising 386 of the 410 LH claims and all three OG claims) to Coeur in return for the following:

- Coeur made a cash payment to the Company in the sum of US Ten Million Dollars (US\$10,000,000);
- Coeur granted to Rye Patch Gold US Inc., a production royalty equal to 3.4% of the gross revenue, less refining costs, of gold and silver produced and sold from the Rochester Mine (the "Coeur NSR"); and
- Conveyed all of Coeur's right, title and interest in the Blue Bird patented lode mining claim located near Lincoln Hill.

The Coeur NSR was effective as of January 1, 2014 and will terminate after 39.4 million silver equivalent ounces have been produced and sold from the Rochester Mine. Silver equivalent will be determined by converting sales of gold to the equivalent number of ounces of silver based on actual prices of gold and silver at the time of sale. The Coeur NSR is non-assignable except to an affiliate controlled by the Company; however, from and after January 1, 2014, the Coeur NSR may be assigned (i) in a single-asset transaction, (ii) for cash consideration, (iii) upon at least 30 days' advance notice to Coeur and (iv) to a company whose principal business is the acquisition, holding or management of precious metals production royalties and streams. Coeur shall have a right of first refusal to acquire the Coeur NSR on the same terms as any proposed permitted sale of the Coeur NSR by the Company.

The Coeur NSR will be paid quarterly, and is fully leveraged to the price of gold and silver.

6. MINERAL PROPERTIES (continued)

Oreana Trend – gold exploration properties, Nevada, United States of America

a) Lincoln Hill Resource Project, Pershing County:

a. Lincoln Hill - developing a gold and silver resource

On November 7, 2007, the Company entered into a renewable 20 year Mining Lease agreement with Mountain Gold Exploration, Inc. and Lane Griffin (collectively, the “Lessors”) on the Lincoln Hill property. The property is comprised of one patented lode claim and unpatented mining claims.

Between 2007 and 2015, the Company made advanced royalty payments of US\$640,000, issued 750,000 common shares and completed the required US\$2.1 million in exploration expenditures, in satisfaction of the terms of the Mining Lease agreement. Each year thereafter the Company must pay advanced royalty of US\$80,000, with the Lessors retaining a 4% net smelter royalty (“NSR”), 1% of which can be acquired by the Company for US\$3 million. The advanced royalties are credited towards the Lessors’ NSR.

Lincoln Hill property additions:

In April 2015, the Company purchased 1,654.75 acres (670 hectares) of surface and mineral estate on private lands adjacent to the Lincoln Hill resource project and surrounding exploration targets. The acquired lands represent strategic locations for infrastructure and facilities associated with the Lincoln Hill gold/silver deposit. The Company paid US\$500 per acre for the surface and mineral estate with the vendor retaining an NSR royalty ranging from 2.125% to 3.5% depending on the parcel.

The Company entered into a five year surface lease agreement, dated October 21, 2011, for three parcels of land with annual lease payments of US\$9,500. The leased land totaled approximately 2.1 square kilometers. The lease is in good standing. On September 8, 2009, the Company acquired certain mining claims for consideration of US\$41,000 plus a 4% NSR, up to half of which can be acquired by the Company for US\$200,000.

b. Gold Ridge Property – exploration drilling

In November 2006, April 2009 and April 2015, the Company acquired, through staking, 100% of an area of lode mining claims that are located 1.5 kilometres west of the Lincoln Hill resource. Exploration drilling in 2014 confirmed the presence of mineralization with further drilling completed in 2016.

c. Independence Hill – exploration drilling

The target is located less than one kilometre south of the Lincoln Hill resource. Mapping, sampling and drilling in 2014, identified this area as an extension of the Lincoln Hill resource trend and a possible target for resource expansion. A follow-up drill program is planned as part of the larger Plan of Operations permit that is in progress

d. Panther Canyon – purchased mining claims

Rye Patch US staked 119 unpatented lode claims covering the historic Rye Patch mine located 13 kilometres north of Gold Ridge and 6 kilometres south of Florida Canyon’s Standard Gold mine operation along a major north-south structural zone in Pershing County, Nevada

6. MINERAL PROPERTIES (continued)

b) Wilco - Newmont Property:

a. Wilco – 100% owned with a limited 60% back-in right

A 2006 agreement between the Company and North American Diversified Resources Corporation (“NADR”), assigned a prior 2005 agreement between NADR and Newmont Mining Corporation (“Newmont”) to the Company. Subsequently, the Company acquired a 100% interest in the Wilco property by making acquisition payments of 5 million shares valued at US\$500,000, cash of US\$150,000 and completing US\$3 million of exploration expenditures. The Company is obligated to make the following payments: an index linked annual rent of US\$84,000 to Newmont should the Company fail to spend minimum required expenditures on the property, annual advanced royalty payments of US\$20,000 (prior to 2011, US\$15,000) and sliding scale royalties between 2% to 5% should certain of the properties achieve production. As a result of the Company not meeting its US\$500,000 annual work commitment in 2015, a rental fee totalling US\$85,858 was paid to Newmont. All other payments are in good standing.

Newmont has a back-in right to earn up to 60% by spending US\$15 million over 8 years (or 70% by spending US\$20 million). This right must be exercised within 120 days of a feasibility study being issued. Should Newmont fail to complete its obligations for the back-in right, the Company can acquire Newmont’s interest for US\$2 million and reduce Newmont and the underlying owners to a range of NSRs between 2% and 5%.

b. Wilco – Newmont Property – 100% owned staked claims

In December 2006 and October 2010, further claims were added to this land package by way of staking.

c. Wilco – H&M Mining – leased mining claims

On March 21, 2007, the Company entered into a Lease and Option agreement on a separate mining claim within the Wilco-Newmont project area. The lease is for 20 years (with two 20 year extension provisions). The lease allows for the purchase of the mining claim by the Company for US\$1 million, less lease and NSR payments made. The lease is subject to a 1% to 3% gold price linked NSR and annual payments totaling US\$110,000 from 2007 to 2011 and US\$40,000 thereafter. All payments are in good standing.

d. Wilco – Rose Claims – purchased mining claims

In April 2015, the Company purchased 23 unpatented lode claims east of the Wilco project covering the Rosal mine property in Section 30, T28N, R33E from Platoro West Inc. The Company paid approximately US\$1,087 per claim and granted a 1.5% NSR royalty to the seller.

Past work at the Rosal mine property shows the extension of the Wilco mineral system to the east. Historic Santa Fe Pacific assay results in the southwest quarter of Section 30 returned anomalous gold values including 12.2 metres grading 1.3 g/t gold and 15.85 metres grading 0.92 g/t gold from surface rock-chip channel sampling. The anomaly is open to the east and requires additional exploration work.

c) Garden Gate Pass Property

On October 1, 2010, the Company acquired the Garden Gate Pass property from Pyramid Lake LLC (“Pyramid Lake”). The project consists of unpatented lode claims and is located 12 kilometres (7 miles) south-southeast of Barrick Gold’s Cortez Hills mine and abuts the newly discovered Goldrush deposit. The Company controls 100% of the property subject to annual advance royalty payments and a 2% NSR payable to Pyramid Lake. Advanced royalty payments are as follows:

d) Patty Property

On October 18, 2011, the Company entered into an agreement with Barrick Gold, US Gold Corp and Chapleau Resources ("the Patty Joint Venture") to earn an undivided 60% of the Patty project located in Eureka County, Nevada. The Patty project consists of 616 unpatented lode claims covering 53.1 square kilometres and is located immediately south of the Company's 100% owned Garden Gate Pass project. Under the terms of this agreement, the Company has the right to earn a 60% undivided interest in the Patty project by spending US\$5 million over a five year period, of which the first year's expenditure of US\$500,000 is committed. In addition, the Company reimbursed the Patty Joint Venture US\$93,120 of lease payments and one half of federal claim rental fees paid by the Patty Joint Venture in 2011.

After completion of the earn-in amount by the Company and within 90 days of this completion, the Patty Joint Venture will have the right to back in to a 60% interest by expending US\$15 million over a five year period, of which one-third will be paid in cash to the Company. After the completion of this back-in, the Company will control 40% of the mineral property and the mineral property will be carried to production. The Patty Joint Venture is required to spend a minimum of US\$500,000 annually (the "Work Commitment") on the property until the commencement of production.

The core Damele claims retain a 3% NSR and an annual 1,500 metre drill commitment, except for 2012, which required a 3,300 metre drill commitment that was completed by December 31, 2012. On September 5, 2014, the Barrick Group renegotiated the underlying lease agreement with the Damele group. No changes to the Company's commitments were made; however, a favourable change to the annual 1,500 metre drill commitment was agreed. An annual work requirement of US\$125,000 ("Damele work commitment") replaces the annual footage (meterage) drill commitment. The Damele work commitment is to be completed within each calendar year until commercial production is achieved.

Rye Patch Gold US Inc. has completed its first and second year Work Commitment obligation of US\$500,000 in 2012 and US\$700,000 in 2013. From October 18, 2011 to September 30, 2014, the Company completed US\$2,081,442 in expenditures on the Patty project. As a result of permitting delays with the Bureau of Land Management, the Company was not able to drill on the Patty project in 2014. On November 4, 2014, Rye Patch Gold US Inc. signed a waiver with the Barrick Group to defer the remaining 2014 Work Commitment of US\$118,558 to the 2015 Work Commitment obligation. The 2015 Work Commitment obligation was amended in December 2015 to reduce the commitment from \$1,450,000 to \$800,000 and total aggregate expenditures to \$2,850,000 as at December 31, 2015. During the three months ended June 30, 2016, the Company terminated the agreement with Barrick Gold. The Company wrote-off all the capitalized mineral property interests related to the Patty property as at March 31, 2016.

e) South Coal Canyon

In December 2010, the Company acquired, through staking, the South Coal Canyon property in Pershing County, Nevada.

f) X Claims

In January 2012, the Company acquired, through staking, the X Claims property in Pershing County, Nevada.
