

RYE PATCH GOLD RENEGOTIATES BONDS, RESULTS IN \$6.2 MILLION REFUND

Vancouver, British Columbia, October 30, 2017 - Rye Patch Gold Corp. (TSX.V: RPM; OTCQX: RPMGF; FWB: 5TN) (the "Company" or "Rye Patch") reports that it has renegotiated the terms for its approximately C\$49 million (US\$32.4 million) of reclamation bonds for the Company's flagship Florida Canyon mine and the Standard Mine in the state of Nevada.

Significantly, the new terms result in a material reduction in the portion of the reclamation bond that the Company is required to fund through cash reclamation deposits. This funding requirement has been reduced from 40 percent of the bond amount to 25 percent, resulting in a cash refund to the Company of approximately C\$6.2 million (US\$4.9 million).

"As a consequence of reducing the risk profile of the Florida Canyon Mine since acquisition, Rye Patch has been successful in securing a significantly lower cash requirement for its reclamation bonds. In addition to generating a non-dilutive cash in-flow today, it will also reduce that aspect of our sustaining capital going forward," commented Tony Wood, Chief Financial Officer.

In Nevada, the United States Bureau of Land Management require a company to place reclamation bonds in trust as security relating to a company's site closure obligation. The obligation is satisfied by a combination of reclamation deposits and reclamation insurance policies.
